

Self-Assessment Guide

Please complete this form to schedule an appointment. Once we have reviewed your completed Self-Assessment Guide, our office will contact you. Expand form as needed.

Date _____ AMCAS ID _____ Application Year(s) _____

Name _____ Year in College _____

Undergraduate university _____

Major(s) _____ Legal residence _____

Because we are a state funded school, we accept 80% of our students from the state of Michigan, so gaining admission for out of state applicants is very competitive.

E-mail address _____ Daytime phone number _____

Before scheduling an appointment at the medical school, applicants should meet with the premed advisor at the institution where they are taking the prerequisite science courses to determine the correct courses to take. Our office does not review transcripts.

I have met with my premed advisor, whose name is _____

If you have previously applied to Wayne State University School of Medicine, please indicate the application year(s). _____

GPA

The average **overall** GPA for the 2014 entering class at Wayne State University School of Medicine was 3.74. How does your GPA compare? Please **fill in your GPA** on the appropriate line.

My undergraduate GPA is _____ > the average.

My undergraduate GPA is _____ = the average.

My undergraduate GPA is _____ < the average.

The average **science** GPA for the 2014 entering class at Wayne State University School of Medicine was 3.68. How does your GPA compare? Please **fill in your GPA** on the appropriate line.

My undergraduate GPA is _____ > the average.

My undergraduate GPA is _____ = the average.

My undergraduate GPA is _____ < the average.

If an applicant has a less than competitive GPA, our Committee recommends 20 credits of coursework in didactic science (BCPM) either as a post-bachelor student or in a graduate program before application. If an applicant has 20 credits of coursework in didactic science (BCPM) either as a post-bachelor or graduate student on the transcript when they apply, the Committee will consider that science GPA instead of the undergraduate science GPA. The Committee is looking for a strong science GPA as evidence that an applicant can be successful in medical school.

Because my undergraduate GPA is less than the average, I have taken the following remedial steps to improve my competitiveness as an applicant to medical school.

____ I have completed 20 credit hours of post baccalaureate coursework in didactic science and my GPA is above 3.7.

My post baccalaureate GPA is _____ with _____ credit hours completed.

____ I have completed 20 credits of coursework in didactic science in a graduate program and my GPA is above a 3.6.

My graduate GPA is _____ with _____ credit hours completed

Graduate or Post Baccalaureate University _____

MCAT

The average MCAT for the 2014 entering class was 31. Please fill in your MCAT scores on the appropriate line.

My MCAT score is _____ > the average

My MCAT score is _____ = the average

My MCAT score is _____ < the average

Please also indicate your score for each section of the MCAT.

My Verbal Reasoning score is _____

My Biological Science score is _____

My Physical Science score is _____

If your MCAT score is below the average, briefly describe the remedial steps you will take to improve your MCAT score.

Extracurricular Activities

____ I have multiple volunteer service to the underserved experiences, participated in sports or band, and/or worked 20-40 hours a week. I have taken leadership roles in clubs or organizations in which I am a member.

Briefly describe five extracurricular activities

Health Patient Care Activities

____I have participated in multiple, diverse health and patient care activities including direct patient care and have demonstrated a long term commitment to medicine. I have clinical research experience.

Briefly describe five health and patient care activities

Please e-mail completed form to admissions@med.wayne.edu or fax to 313-577-9420

We have limited advising in our office, we may refer you to a premed advisor on main campus or at your undergraduate university.
