Activating WSU AccessID and Email

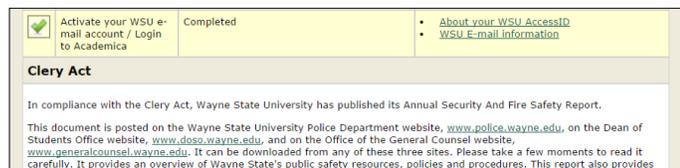

Your Wayne State AccessID and email address is your key to WSU computing services and resources, including: Academica, Blackboard and Wayne Connect.

- The AccessID is a unique identification code assigned to each applicant, student and employee. It is a combination of two letters followed by four digits (e.g., xy5678).
- The Wayne State email address is your AccessID followed by @wayne.edu (e.g., xy5678@wayne.edu).

Getting Started

Follow the steps below to log in with your AccessID and temporary password to set up self-services.

1. Open your application checklist.
2. Scroll down to "Activate your WSU e-mail account/Login to Academica".

Note: The green check mark will not appear until you have completed the activation.

3. Log in using your AccessID and temporary password. The temporary password will be the 9-digit Student ID, which is also located on the application checklist.
4. Follow the prompts.
5. When you are prompted to change your password, choose a secure one that you will easily remember.
 Note: Your password must be at least eight characters.

Important: Your AccessID and password will be your key to accessing many Wayne State services, including email, online classes, and wireless internet.

Keep your password safe and do not share it with anybody!
