

Wayne State University School of Medicine

Student Stay-Over Program 2018-2019

Dear Prospective Student,

Congratulations on receiving an interview at Wayne State University School of Medicine! When you come to visit our school, we want you to feel welcome and comfortable. We also want to provide you with the opportunity to get information from current students first-hand. Therefore, we are offering you a chance to stay with current medical students as part of the Student Stay-Over Program.

As students, we understand what you are going through in the application process and the financial strain that interviewing can add. We also understand the stress that comes from traveling. The Student Stay-Over Program provides you a safe place to stay while in Detroit, and gives you the chance to talk to current medical students about the school, community and student life that you can expect.

A few caveats and guidelines about the program:

- This is a student run program, and is ***not*** an official function of the university.
- Participation in the program will ***not*** influence your admissions status in any way. Please stay wherever you feel most comfortable.
- We will try to provide a comfortable and safe environment for you. However, please understand that living arrangements and student hospitality vary.
- ***Transportation*** of all forms is ***your*** responsibility. This includes transportation to and from the airport and university.
- You are responsible for ***your own meals*** as well as toiletries (i.e. towel, washcloth, etc) and all other necessities for your interview.
- Please stay with a person of ***your own gender if possible***.
- The exam dates for first and second year students are listed below. **Please try to be as conscientious as possible of these dates when trying to find a student host.** If your interview date is close to a second-year exam, try to stay with a first-year student, and vice versa. If there are both first and second year exams immediately following your interview date, try contacting a third or fourth year student. At the same time, do not feel that you should not participate in the program if your interview falls close to an exam. **We will do our best to find you accommodations!**

Have a great time and feel free to ask questions! Your student host can give you useful insights about classes, student life, the greater Detroit area, etc.

Best of luck during this interview season!
